LETTER OF GOOD STANDING

ISSUED BY NAZLI TECH SCHOOL

OFFICIAL ACADEMIC CORRESPONDENCE

To Whom It May Concern,

This official letter serves to confirm that **SHIMIRWA Teta Sonia** is associated with Nazli Tech School through the **Rwandan Code Hills 1001** program, delivered in collaboration with Women In Tech Rwanda.

According to the school's records, the above-named individual is in good standing. This letter is issued upon request as confirmation of their academic association with Nazli Tech School.

CONFIDENTIAL

During eight weeks of Green Sip Tech Talk in the Rwandan Code Hills 1001 program, SHIMIRWA Teta Sonia successfully designed and developed a bespoke Rwandan product prototype linked to the group's Code Hills app for Nazli Tech School to evaluate. Selected for further refinement, the student's prototype may be considered for sale in Rwanda, across Africa and beyond, subject to evaluation. We recommend the student as they begin an entrepreneurial journey in AI and technology.

The Rwandan Code Hills 1001 course program, designed and implemented by Nazli Tech School in collaboration with Women in Tech Rwanda, was an intensive initiative training students to build a full scale software solution driving local enterprise through Rwanda's

natural resources. The app generates student authored, bespoke business plans featuring complete operational, financial, and supply chain guides for micro to large scale ventures. Beyond software engineering, students mastered generative AI (Claude, Claude Code, Gemini), content creation, data analytics, and cybersecurity via custom Rwandan Imigongo pattern generation. Crucially, through Nazli Tech School's rigorous Green Sip Tech Talk entrepreneurship sessions, student teams executed end to end product development, creating physical, locally sourced product prototypes linked directly to their app. By seamlessly bridging AI technology with physical entrepreneurship and proving scalable business concepts, participating students demonstrated exceptional cross disciplinary execution, technical competence, and practical innovation highly commendable for academic and professional recognition.

CONFIDENTIAL

Should you require further verification, please contact Nazli Tech School at the official email address above and quote the reference on this letter.

Sincerely,

Dr. Nazha Habibi
